RECEIVED

NOV 30 2006

DIV. OF OIL, GAS & MINING

Attention Beth Erickson,

This letter is concerning the Small Mine Contract between the State of Utah and Mystery Mines.

My concern is the disturbances cause by servayance and mining done by government and other mining excavation prior to my lease. In a previous letter Mystery Mines claimed the road that best suited our purpose so that we could say this is not a designated road. Our activities have been gathering surface rock by hand therefore leaving very little disturbance. We reserve the right to use equipment to dig or go underground.

Sorry for the delay I hope that this is everything you will need to sustain my right to operate.

Sincerely,
James Wesley Hill
Mystery Mines

James Hill
